BRIEF ABSTRACT OF LETTER.

Requests that in accordance with the resolution of the D.B. they may be relieved of the charges of maintaining the Babulbidan Hill road or that the grant-in-aid of Rs 2500 per annum which they have been receiving for the past 4 years may be continued to them permanently.

NOTES AND ORDERS.

In order to afford temporary relief to the District Board of Kadur till their finances improve Government were pleased to sanction an annual grant-in-aid of Rs 2500 from Provincial Funds towards the maintenance of the road on the

express Condition that the District Board should so regulate their finances as to be able at the end of the current year to bear the cost of maintaining the road without any aid from other funds.

2. With a view to reduce expenditure the District Board had reduced the mileage allotments for 8 roads in the district but have now again proposed to restore the original allotments as the original allotments are found very necessary for the proper upkeep of the roads. The Chief Engineer opines that the allotments are absolutely necessary for the efficient maintenance of the roads for reasons given in the linked file. Thus it is perhaps not possible to reduce expenditure under A II Repairs. Under A I original works and B Public works which are fluctuating items only small sums are being annually provided so that no unusual large expenditure appears to be incurred under these heads. Under C Civil charges there are few items which are not of a recurring nature and here also it may not be possible to reduce expenditure materially.

3. With a view to augment the income the establishment of a toll gate on the Shimoga-Yedahalli road was sanctioned and the levy of tolls brings in only a small income of ~~Rs~~ about Rs 500 a year. It is not known whether tolls on other roads can be conveniently levied.

In this connection it may be noted that a proposal from the District Board to raise the local cess on land Revenue ~~from one~~ the main source of income - from one anna to 1¼ anna is pending before Govt although has yet to be disposed of by Govt though the General question of raising the cess ~~levy~~ from one to two annas in all districts has been vetoed by the Economic Conference to whom it was referred for consideration.

Unless the proposal to raise the local cess in the Kadur Dt is sanctioned there seems to be very little probability of materially improving the finances of the District Board ~~of~~ by the existing standard of expenditure has to be continued.

10 2 From my knowledge of the District I can say that there is not a single D[istrict] Fund road of any importance from which an appreciable income can be realised by levy of Tolls. All the important roads carrying heavy traffic are Provincial roads; and any tolls levied on them will go to Provincial Funds and not District Funds

11 3 When I was in charge of the District I tried to devise some means of improving the receipts of the D[istrict] Board but I could see no way of any feasible plan. The only course left was to suggest an increase of Local cess. With great diffidence the Board was induced to consent to an increase of ¼ anna in the rupee on land and even this the Board wanted, I believe, to be utilized for a Railway line

That dept therefore suggested a temporary grant in aid for two years, which remains to be sanctioned.

37) The letter of the President, Kadma Dt. Board reveals that the revenue from the opening of a toll gate on the Baba Budan Hill road, will be very little Rs. and the suggestion that the toll gate receipts should go to the Provincial funds does not admit of any consideration.

38) The question of sanctioning a grant in aid of Rs 2500/- for two years 1913-14 & 1914-15, and the authorising of the opening of a toll gate by the Dt. Board itself has now to be taken up.
